GEO. LOGSDON KILLED IN RAILROAD WRECK

**The Body of W. T. Edwards
Stepson Will Be Brought
to Chanute for Burial**

Word was received here this morning by W. T. Edwards of 1216 South Central avenue of the death of his stepson George W. Logsdon in a railway wreck last night at Trinidad, Colo. The message was from his brother J. E. Logsdon who will accompany the body home. He expects arrive Sunday at ten forty-five. So far no funeral arrangements have been made.

The message received gave no particulars in regard to the wreck. Logsdon was a brakeman for the Santa Fe and it seems the wreck occurred in the yards. Mr. Logsdon has been in the employ of the company for nearly four years, but has been in the train service but one year. He has made his home in Colorado for the past two years.

Roof Garden Changes Hands

The Roof Garden theatre has changed hands, Hedge, Justice and Rickel having disposed of their interest last Monday to Messrs. Fitzsimmons & Sinclair.

T. G. Fitzsimmons is Chanute's well known interior decorator and is an authority on ventilation and a thorough business man. Mr. Sinclair is a newcomer to Chanute, an amusement manager of much experience and more than local reputation; and under the direction of this management the popular amusement house bids fair to surpass anything ever seen in Chanute.

Extensive repairs and improvements are being made. The stage will be enlarged and refinished and will stage the best vaudeville to be procured in the middle west.

In order not to interfere with the program now running at the Roof Garden, the new scenery and stage equipment is being built elsewhere and will be installed Monday. All will be ready for the formal opening with vaudeville for Monday, June 16th. The vaudeville for Monday will be the team of Coburn and Gutherie, who are entertainers of par excellence. They will be featured in addition to the regular program of the latest and best movies.

COMMISSIONERS HAVE RETURNED

Mayor W. M. Clover, Commissioners W. F. Sams and L. N. Johnson and Chief of the Fire Department S. O. Mitchell have returned from a two days stay in Kansas City where they were inspecting auto fire wagons, flushers, and street and electrical work as it is to be seen in the city.

Motorcycle Blaze Was Dangerous

A motorcycle belonging to James Watkins was nearly destroyed by fire yesterday and for a few minutes placed the whole of the Oriental garage with about \$75,000 worth of cars and paraphernalia, in danger.

The motorcycle blazed all at once and it was thought a wonder that the tank containing a quantity of gasoline did not explode. The machine was wrapped in flames and Burdette Slane attempted to extinguish the fire with his coat. He could not, but by that time the fire department arrived and some chemical fire extinguisher did the work.

Cars were rolled out of the garage faster than had ever been done before in the history of the building. Main street owners of cars came running from all directions. The cars were in imminent danger for a number of minutes. The quantities of gasoline throughout the building added to the danger of the explosion.

Turkey dinner Sunday at Mission Cafe, 35c.

CRUDE OIL IS THE DOPE

The chinch bugs have been checked. That is in certain places in this vicinity. Marion Johnson, on his farm south of here, and Chas. Nichols, on his farm northwest of town, and several other local farmers have been trying a new experiment lately and the same has met with a large degree of success. Crude oil is the means by which Mr. Chinch Bug is being bluffed and since the crude is so plentiful around here there is no logical reason why all farmers in this vicinity should not successfully use the same.

Both Mr. Johnson and Mr. Nichols spread crude oil along the outer border of their corn field. The bugs were in their wheat and the corn was close by but when the crude oil line was reached by the chinch bugs they would back up every time. Try the crude oil scheme, if you are bothered with chinch bugs, and profit thereby.—Erie Record.

If you are interested in Community Mausoleums either for or against, it may pay you to investigate this. See I. F. Romberger or the display in his show window, it may help you to decide. tf
